Shared Services...

Controlling the Costs, Focusing on the Kids

Thursday, November 2, 2006 6:30 p.m.

Three Bridges Banquet Hall

(directions follow)

Hunterdon County School Boards Association prides itself on being a leader and setting the standard for the advancement of board member training and information sharing.

At this program, we will provide “cutting edge” information on shared service opportunities in Hunterdon County. Board members and administrators will gather to discuss alternatives to regionalization, finding a balance between cost savings and improving academics, and how to keep the public informed about all that is being accomplished in your district and the region.

Additionally, at this meeting we will gather information from all districts in attendance on existing shared service arrangements to develop our own county report which will be made available for your district’s use.

What resources might be available to you that you are not already using? Information will be provided about the newly available grant money being made available through the Department of Community Affairs’ SHARE program. Come learn about new initiatives being planned by the Hunterdon County Chamber of Commerce. What new ideas for collaboration are out there?

**Presenters will include:
Hunterdon County Chamber of Commerce
NJ League of Municipalities**

Buffet Dinner will begin at 6:30 PM and will be immediately followed by our meeting.

Cost is \$33 per person.
