## VOTERS APPROVE \$416 MILLION IN SCHOOL CONSTRUCTION

TRENTON, October 1, 2003—Voters on Tuesday approved school construction projects in 22 of 25 New Jersey school districts, the New Jersey School Boards Association reported today. The amount of new construction authorized on Tuesday totaled \$416.7 million.

"Voters continue to support their local schools, as demonstrated by the approval of new schools, additions and renovations during a difficult economic climate," said Edwina M. Lee, NJSBA's executive director. "So far in 2003, voters have approved more than 80% of school construction referenda—the highest rate since 1997, when the New Jersey School Boards Association began collecting data on bond referenda. That year, the passage rate for bond referenda was 52.7%."

Of the total amount approved Tuesday, \$112.2 million will be funded with state grants through the Educational Facilities Construction and Financing Act. Signed into law in July 2000, the act provides \$8.6 billion in state funding for school construction and covers a minimum of 40% of state-determined eligible costs of voter-approved school construction projects. Before the act was signed, 240 school districts received no state funding for school construction and another 108 districts received a fourth or less of construction costs from the state.

Statewide, construction financing on Tuesday's ballot is divided between state and local sources as follows:

Total project costs — **\$416,748,634.62** (\$527,625,332.62 proposed)

State grants — **\$112,203,304** (\$126,089,309)

Locally financed bonds — **\$303,545,636.62** \$400,536,329.62 proposed)

Other local funds — **\$999,694** (\$999,694 proposed)

[[Click here for descriptions of the 25 school construction proposals on Tuesday's ballot.](#)]

School construction referenda are limited to five dates a year. They include the final Tuesday in September, the second Tuesday in December, the fourth Tuesday in January, the second Tuesday in March, and the Annual School Election on the third Tuesday in April.

The amount of spending that voters have approved so far in 2003 is \$981.4 million.

\*\*\*\*\*

The New Jersey School Boards Association is a federation of more than 600 local boards of education. Established more than 80 years ago, NJSBA represents the education and related health and safety interests of New Jersey's 1.3 million public school students and advocates the positions of the state's local school districts. The Association also provides inservice training and technical assistance to the state's 4,800 local board of education members. School board members, who serve without compensation, are the largest group of elected and appointed public officials in the state.
