Assistance to Stateoperated School District

The New Jersey School Boards Association, as the organization which represents the interest of all boards of education in the State of New Jersey, is particularly wellsuited to provide assistance to stateoperated school districts, including but not limited to inservice training for members of school boards who are appointed to serve in an advisory capacity in stateoperated school districts, pursuant to N.J.S.A. 18A:7A47.

Upon the request of the commissioner of education and in cooperation with the state district superintendent of schools, the Association shall provide assistance for training of school board members in stateoperated school districts. Where the stateoperated school district board of education has continued to pay its full dues to the NJSBA, any program or training charges shall be made by the Association on the same basis as such charges are made to all other school boards in good standing. If the stateoperated school district is not in good standing in the Association, any assistance provided by the NJSBA shall be charged to and paid for by the stateoperated school district according to a schedule of fees and charges to be agreed upon by the Executive Director and the state district superintendent.
