**BUSINESS OPERATIONS
BUILDINGS**

Buildings

Interiors and exteriors of Association buildings shall be included in a program of continued preventive maintenance.

Building interiors shall be monitored constantly and shall be cleaned, painted and repaired as necessary in order to keep facilities in optimum condition.

Building exteriors shall be subjected to periodic inspections to ensure that any damage is promptly repaired and that various highrisk areas, such as roofs, drains, eaves and windows, are kept in peak condition.

The building maintenance supervisor shall develop a schedule of maintenance activities to implement this policy.
