EMERGENCY AND DISASTER PREPAREDNESS

Emergency and Disaster Response

The New Jersey School Boards Association is committed to providing programs and services to its members, thus it is necessary to provide for procedures to deliver those services in the event of an emergency or disaster. The objective of the procedures is to provide for the safety of employees and visitors to the Association, and also to minimize the loss of operational effectiveness if business operations and/or computer support were lost due to natural disaster, fire, power failure or other unexpected interruption. These procedures are established in the accompanying regulation, GO 4148R. The procedures to be followed in the event of a bomb threat are set forth at GO 4147, 4147R and 4147E.
