INTELOCATE™

When Time is of the Essence, Intelocate It!

We understand the importance of speed when it comes to operations, so our aim is to fully deploy Intelocate for new customers within 30 days, if not sooner.

In fact, we recently took a new customer from sign-up to launch across 100+ locations in just 22 days!

"Intelocate has transformed our operations – issues are resolved faster, and nothing slips through the cracks."

Dr. Richard Tomko
Superintendent, Garfield Board of Education

Feature Focus:
White Glove Onboarding

White Glove Service from Start to Finish

From the moment you sign up for Intelocate, our Customer Success team works with you to ensure that your organization's environment is configured in a way that sets your teams up for maximum productivity.

Tailored to Suit Your Organization's Structure

No two organizations are structured the same, even when within the same industry. Instead of providing cookie-cutter, templated solutions that don't address your precise needs, our Customer Success team takes the time to understand your business and optimize the platform to get the best results.

Optional Pilot Scheme Available

Before an organization-wide roll-out, many of our customers opt for an initial pilot scheme across a small sample of locations to better understand the way their staff will utilize the platform. This allows our Customer Success team to identify workflow improvements, and make changes to better reflect your teams' real-world usage ahead of a full launch.

More Than Basic Onboarding

Once we launch your organization on Intelocate, our Customer Success team schedules regular meeting and check-ins. It's here that we'll work to ensure that everything is working the way you need it to, provide additional training to your teams, and offer insights on further optimizing your Intelocate experience.
